## Water Destination Diagram

## Given:

| Estimated SMD $=$ | 3 in |
| ---: | :--- |
| Average Infiltrated $=$ | 4 in |
| Average of the Low Quarter $=$ | 3 in |

Equation: $\quad Y=M x+b$

## Solution:

$$
\begin{array}{rlr}
\text { Slope, } M= & -0.0267 \\
b & = & 5.33 \\
Y_{100} & & 2.67
\end{array}
$$

(X)

Point of Intersection ${ }^{1}=87.5$
3

## Graph Data

| Pt <br> $\#$ | Portion <br> of Area <br> $(\%$ X) | Depth of <br> Water <br> (in) | SMD | Ave <br> Low 1/4 <br> (in) |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
